PROPHECY UPDATE

DEFINITION AND EXAMPLES ADOPTED BY BILL

“Antisemitism is a certain perception of Jews, which may be expressed as hatred toward Jews. Rhetorical and physical manifestations of antisemitism are directed toward Jewish or non-Jewish individuals and/or their property, toward Jewish community institutions and religious facilities.”

Contemporary examples of antisemitism in public life, the media, schools, the workplace, and in the religious sphere could, taking into account the overall context, include, but are not limited to:

1. Calling for, aiding, or justifying the killing or harming of Jews in the name of a radical ideology or an extremist view of religion.
2. Making mendacious, dehumanizing, demonizing, or stereotypical allegations about Jews as such or the power of Jews as collective — such as, especially but not exclusively, the myth about a world Jewish conspiracy or of Jews controlling the media, economy, government or other societal institutions.

8. Applying double standards by requiring of it a behavior not expected or demanded of any other democratic nation.

9. Using the symbols and images associated with classic antisemitism (e.g., claims of Jews killing Jesus or blood libel) to characterize Israel or Israelis.

10. Drawing comparisons of contemporary Israeli policy to that of the Nazis.

11. Holding Jews collectively responsible for actions of the state of Israel.
